

## THE MAN IN BLUE

"The Man in Blue," Universal-Jewel co-starring Herbert Rawlinson and Madge Bellamy, comes to the Didsbury theatre, next Saturday, July 4, heralded as a colorful story of life in the Italian quarter of a great American city—a story that has been duplicated many times in real life, as entries in Police Department records can be taken as facts according to director Edwards Laemmle.

It is the love story of an Irish policeman whose beat is in the Italian quarter, and of a little Italian flower girl, the parts played respectively by Rawlinson and Miss Bellamy. Opposed to their marriage is the uncle of the girl and a middle-aged Italian boss, who wants her for himself.

"Beyond the Border" is a place where anything might happen and where everything has been known to happen. That is why it makes such an admirable title for Harry Carey's new Hunt Stromberg production which comes to the Didsbury Opera House on Wednesday, July 8. Carey's capabilities are as unlimited as the space "Beyond the Border".

It is not at all outside the realm of credulity to see him take the place of another man and get away with it, as he does in this picture. He stresses the difficulties, the pathos, and the comedy of the situation with such finesse that nobody thinks to wonder that the heroine does not discover the masquerade.

Harold Stauffer, who for some time has been employed as assistant at the C.P.R. depot, has been transferred to Banff.

## M. EBERT HOWE

Registered Optometrist

Will visit Chambers Drug Store on Friday, May 29th, and every second Friday from that date.

## MILK! MILK!

## School Exams.

### Promoted to Grade II.

The first three tie for top place, the remainder follow in order of standing in class—

Irene Bellamy, Eddie Carleton, Doris Malmas.

Gordon Dedels, Agnes Rempel, Arthur Evans, Irene Kercher, Warren Matheson, Lorraine Durrer, Mary Newton, Richard Walder, Willie Cummins, Alice Violette, Earl Dedels, Evelyn Merner, Jack Booker, Jimmie Lamont, Beulah Merner, Arthur Kinsey.—Olive C. Stock, teacher.

Grade IV. to Grade V. with honors Margaret Kercher, Ruby Traub, Fred Evans, Vera Lowrie, Sydney Hall, Jessie McCoy, Louisa Newton Pass—Victor Roper, Maitland Perrin, Willie Newfelt.

Fail—Jimmie Johnson.

Grade V. to Grade VI. with honors Dorothy Hugot, Velma Traub, Fred Fritz, Mary Rempel. Thomas Clarke, Alfred Durrer, Margaret Geiger, Clara Burkholder, Mildred Roper, Mary Walders, Kathleen Pitt, Donald Hardy, John Morton, Gordon Boettger, Elina Dedels, Frances Durrer, Verdine Mjolsness, Ileen Durrer, Herbert Booker.

Pass—Freda Moon, Hazel Hall, Reta Herber, Louise Walder, Ivy Honeysett, Leonard Berscht, Lynn Dunsperger, Herbert Sinclair, Gordon Ortwein, Tom Roysds.—Miss Klinek, teacher.

The following pupils of Didsbury public school passed the final examination for promotion from grade VI.—

Keith Miller, Sarah Stauffer, Grace Rosenberger, Annie Currie, Marion Watt, May Roysds, Willard Hehn, Arly Manhard, Holly Hunsperger, Amy Lowrie, Marion Johnston, Charlie Geiger, Marjorie Vincetti.

The pupils' names are in order of merit and the first five have secured honors standing.

George Hawkes passed a qualifying examination for promotion earlier in the term.

### Every Member Wanted To-Night.

A meeting of the sports committee will be held in the C.P.R. waiting room this evening (Thursday) at eight p.m. to arrange a program for the exhibition.

Will every member please attend.

### A Bold Raid on the Bank of Montreal.

The newly-opened office of the Bank of Montreal was visited on Saturday morning by a gopher, possibly representative of a number of its kind. Considerable discussion took place between the visitor and the bank staff, but no information of value could be elicited. Finally it took refuge between the teller's cage and a wall, and its removal was eventually accomplished by means of a long bamboo whip-handle.

Mrs. Kinsey and family left town this week for Salmon Arm, B.C.

About twenty-five of Didsbury's residents spent Sunday at Sylvan Lake.

## Fair Grounds to Have Larger Track.

### Other Improvements Contemplated by Officials of Exhibition.

Arrangements are being made by the Directors of the Didsbury Agricultural Society for improvements and extensions at the exhibition grounds which it is expected will do much to alleviate the congested conditions of former years. One of the most important will be the construction of a road to the south end of the grounds, grading to be commenced from the gate close to the butte. It is planned to erect a building at the south end to accommodate the cattle, swine and sheep, the horses being placed, as in the past, on the north side. The new structure will be large and commodious, and should accommodate about seventy head of stock. The road will be built with a view to giving better protection to the spectators and will in no way affect the trees nor mar the natural beauty of the hill itself. This arrangement will enable the directors to place the show ring nearer the crowd and also afford better protection from the sun.

The race track is also receiving attention, and this will be extended to half a mile, bringing it to the scale required by the Association.

It may be added that most of the work connected with the above is being done entirely gratis, and although many have come forward and generously proffered their assistance, as the time is short and it is desired to have everything completed before the fair opens, still further help is required. Anyone desirous of assisting should apply to G. V. Berscht, the manager.

To indicate the great interest and the energy being displayed in this year's exhibition by the officials and directors, it may be stated that the meeting held on Wednesday of last week, there were no less than fifteen present. Every detail is being gone into thoroughly and there is no doubt that 1925 will witness the biggest yet.

Among other matters discussed at the meeting, was a membership drive to help defray the cost of erecting the new sheds and it was decided to do this as soon as possible. Every member secured now or before the fair entitles the Society to grant of fifty cents from the government.

Membership tickets may be obtained from the secretary, A. A. Revell, phone R313.

### Jutland W.C.T.U. Have a Pleasant Meeting.

A special meeting of Jutland W.C.T.U. was held at the home of Mrs. N. Eckle on June 21st, there being about twenty ladies present. A very pleasant time was spent by all with singing and instrumental music, and afterwards a delicious lunch was served. The meeting was called primarily for the purpose of arranging a program for the garden party at the home of Mr. and Mrs. C. R. Liesemer on July 15th. Admission for adults will be 25c., children 10c. Ladies are requested to bring cake and salads. A very interesting program has been arranged, consisting of singing, instrumental music, speaking, and a mock marriage. A cordial invitation is extended to all.

Try and come to the annual camp meeting in Didsbury, July 9th-19th. For particulars write Rev. C. T. Homuth, Didsbury. A. Traub, in charge. Three regular services daily. Various speakers will be in attendance. Everyone invited.

## Canada's Tied-Up Resources

(Third Article)

In all articles appearing in this column, it is sought to be optimistic and constructive, rather than pessimistic and destructive, because only so can any service of real value to the community be rendered. Having in the previous two articles on "Canada's Tied-Up Resources" outlined the situation which confronts every citizen and lover of this Dominion—and an extremely critical situation it unquestionably is—some attention should be devoted to finding a solution, if, indeed, one can be found. But found it must be if Canada is not to continue in the doldrums for many years to come, cheated of the position among the nations of the world which Nature intended (through the variety and abundance of its gifts) this country to occupy.

The first essential to a solution is an awakening of the people of Canada to a full realization of their country's present position in respect to its resources. A second, and equally important essential, is frankness and courage on the part of public men of all parties in facing and grappling with the problem confronting Canada.

It is necessary that present shibboleths, pet policies, and partisan nostrums be completely scrapped and relegated to a forever buried past. Instead of continuing to waste time debating in just what manner the stable can best be locked now that the horse is stolen, each interested citizen in Canada should unite with other interested citizens in an endeavor to, if possible, recover the stolen horse.

The battle for and against embargoes, or export duties, on pulp wood and pulp, on waterpowers and electric energy, on nickel and other ores, is being waged with vigor. It is largely beside the mark. At best embargoes and export duties are but half measures and likely to result in reprisals. They do not go to the basic root of the whole trouble, namely, that an enormous amount of Canada's natural resources have passed from Canadian ownership and control into foreign control, and that control is being exercised to the detriment of Canada, checking development, employment, growth of population and industry, and making full prosperity impossible.

The last thing to be advocated in this column is repudiation of obligations, whether national or entered into through private contract. Consequently no such thing is expressed or implied. It must be recognized, however, that when the natural resources of any country—the property of all the people—pass into private ownership and control, there also passes to the new owners an obligation to the people and country who were the original owners. That obligation, expressed in written contract or not, is that the resources in question shall be developed for use of the people as a whole, thereby providing for their wants and advancing the welfare of the country at large. If this obligation is not carried out honestly and to the full ability of the new owners, then the original owners have right and justice on their side in demanding either the discharge of such obligation or a return of the property.

With such huge issues at stake as the success of our railways, the prosperity of all our industries, employment for our people, increased population and wealth necessary to carry our national burdens and pay off our war debt, with, in fact, the whole future of Canada as an economic and national unit hanging in the balance, the people of this Dominion dare not allow its national and natural resources to remain indefinitely tied up awaiting the convenience of foreign interests for their development for use.

The Dominion Parliament and the Legislatures of those Provinces which have control of their natural resources would be acting well within their undoubted rights if they gave notice to all holders of undeveloped natural resources that development must be begun and prosecuted with vigor, not a mere surface scratching but real development consistent with the nature and extent of the resources held, and that, failing such development within a stated time, title to all such resources would revert to the people as represented by the Crown.

Such action could in no sense be construed as repudiation; it would rather be a proper enforcement of the rights of Canada and the Canadian people, and a very necessary recognition of Canadian manhood and independence and emancipation from a galling servitude which, if continued, sounds the death-knell of the Dominion.

The largest smokable cigar ever made was presented to a New York politician. It was twenty-eight inches in length and weighed more than five pounds.

Female moths have the strange power of being able to "call" their mates from miles around. Scientists have never yet obtained a satisfactory explanation of this mystery.

## Children Cry for

**Fletcher's CASTORIA**

**MOTHER:**—Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of *Charles H. Fletcher*. Proven directions on each package. Physicians everywhere recommend it.

## Britain Makes Another Payment

Washington Receives Over Sixty-Eight Million For Semi-Annual Interest

The U. S. treasury received payments from Great Britain, Finland, Hungary, Lithuania and Poland on account of their funded indebtedness to the United States.

The British payment, a semi-annual remittance on interest, amounted to \$68,310,000. It was paid in 2½ per cent. treasury certificates with a \$75.94 payment in cash necessary to adjust the interest accrued.

The total payment from Finland, \$133,850, was made in cash. Hungary funded half of its third semi-annual payment of interest, and paid the other half, \$14,905.69 in cash. Lithuania also funded part of its first annual installment on principal and interest, and turned over to the treasury \$75,225 in cash, of which \$45,225 was for interest and \$30,000 for principal. This payment also was in cash.

The first payment on account of the Polish Government amounted to \$500,000, but approximately \$136,000 was turned over to the treasury last January, and the remainder was remitted on June 15 in cash.

## 2 Years' Backache Subdued by "Nerviline"

"Backache was the bane of my life, and for two years I was so lame as to be unfit for work," writes E. S. Sloane, from Georgetown. "While in Smith Bros. Drug Store, I heard of Nerviline, being a wonderful pain-destroyer, so I decided to try Nerviline. Thanks to Nerviline, my two-years' backache was rubbed away, and today I am perfectly well."

All those who suffer from weak, aching backs, those whose muscles are stiff, whose joints are swollen, let them try Nerviline—the liniment that never fails. 25c at all dealers.

## Grain Inspections At Calgary

Since the beginning of the present shipping year, approximately 28,000,000 bushels of grain have been inspected in Calgary. Of this quantity 24,000,000 bushels were wheat.

## BABY'S OWN TABLETS ALWAYS IN THE HOME

Once a mother has used Baby's Own Tablets for her little ones she always keeps a supply on hand, for the first trial convinces her there is nothing to equal them in keeping children well. The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach, thus driving out constipation and indigestion, colds and simple fevers, and making teething easier. Concerning them, Mrs. Saluste Pelletier, St. Dumas, Que., writes:—"I have used Baby's Own Tablets for the past ten years and am never without them in the house. They have always given the greatest satisfaction and I can gladly recommend them to all mothers of little ones." The Tablets are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Canal Saves Auto

An auto standing on a street at Phoenix, Arizona, suddenly burst into flames. The owner pushed it into an irrigation canal. The flames were extinguished, another car pulled it out, and he drove off with only slight damage.

Unless worms be expelled from the system, no child can be healthy. Mother Graves' Worm Exterminator is an excellent medicine to destroy worms.

## New Grain Act

Would Make Provisions Uniform Throughout the Dominion

Concurrent legislation to make provisions of the new Grain Act uniform throughout Canada and place them beyond question on the ground of constitutionality, should be asked of the Provincial Governments, especially those of the western provinces. This is the tenor of a resolution adopted by the agricultural committee of the house at Ottawa.

The resolution was sponsored by J. L. Brown, Progressive, Liasgar, Man. It asks the Federal Government to take up with the Provincial Governments the advisability of passing such concurrent legislation at the earliest possible date.

Very often a sound investment is just a bit of speculation that turned out all right.

## Farthest North Surveys

Department of the Interior Lays Out Plots at Six Posts in Arctic Archipelago

Six different posts in the Franklin district of Northern Canada have now been surveyed for the Royal Canadian Mounted Police or for trading companies, as one of the results of the 1923 and 1924 Arctic expeditions under the North West Territories and Yukon branch of the department of the interior.

Plans of these surveys are prepared by the topographical survey branch from the surveyor's field notes for filing with the registrar of the North West Territories. These surveys were made at Craig Harbor, Dundas Harbor, Strathcona Harbor, Ponds Inlet, Cumberland Sound and Rlee Strait, by F. D. Henderson, D.L.S. The last named post on Ellesmere Island, being only 750 miles from the North Pole, is the most northerly point at which any official survey has ever been made.

## Canada's Problems

Sir Robert Falconer Addresses Educationists at a Dinner in London

Many educationists of note attended the dinner given by the Canada Club of London in honor of Sir Robert Falconer, president of the University of Toronto.

Sir Robert submitted that Canada's three greatest problems were: First, the internal unification of the Dominion; second, her future population; third, the complaint that Canada is reserved in her attitude towards Britain and the empire.

The western and maritime provinces are just now loudly expressing discontent and it is certain that they have received less from confederation than they legitimately expected, he stated.

Soft corns are difficult to eradicate, but Holloway's Corn Remover will draw them out painlessly.

## Speculate On Canada's New Governor-General

Officials in London have already formed definite views as to the qualifications necessary for the important and responsible post of governor-general of Canada. The name of Prince Henry is again being mentioned, and it is noteworthy that he alone of all the Princes was present with his august father when the latter opened the new Canadian building on Monday, June 20, while his interest in all things Canadian has been patent for some time past. One thing can be definitely said with regard to the appointment, if Canada has any particular predilections for any particular person they have only to explain their preference in order to have it carried into effect. It is admitted that it will be a difficult task to find a man outside the royal family who is invested with sufficient prestige and influence to make the bonds between the motherland and Canada more secure.

Life was safer when all the honking was done by geese.

Minard's Liniment For Neuralgia

## Warren Harding Memorial

Statue to be Unveiled at Vancouver in September

An international memorial which in many ways is unique, will be unveiled in Vancouver on September 17 next, to perpetuate the remembrance of the late President Warren G. Harding's visit to Canadian soil in July, 1923. The unveiling will take place after the international convention of Kiwanis Clubs under whose auspices the memorial is being erected. Although the statue was first ordered to be built by a committee acting on the initiative of the Kiwanis Club of Vancouver, the subscription list was open to clubs in the United States as well, with the result that the objective of \$35,000 was soon over-reached and the United States clubs insisted that they bear the entire expense, the amount subscribed by the Canadian clubs being returned to them.

The memorial will mark an event of which history offers no duplicate—that of a United States president making an address on Canadian soil during his term of office. President Harding visited Vancouver for a few hours on his way south after visiting Alaska in July, 1923, and was given an impressive reception. His address, in which he made an eloquent plea for continued friendship between the English-speaking peoples and practically between Canada and the United States, was listened to by over 20,000 people and aroused considerable interest throughout the British Empire.

Wise and experienced mothers know when their children are troubled with worms—and lose no time in applying Miller's Worm Powders, a most effective vermifuge. It is absolute in clearing the system of worms and restoring those healthy conditions without which there can be no comfort for the child, or hope of robust growth. It is a most trustworthy worm exterminator.

The most perfect form of flattery is to say to people what they think of themselves.

Approximately 18,000,000 automobiles are in operation in the world.

**For COLIC AND CRAMPS PAINS IN THE STOMACH There's Nothing Equals**

It has been in use for over 80 years; its action is pleasant, rapid, reliable and effectual, and relief comes promptly.

"Don't accept a substitute." The genuine is put up only by The T. Milburn Co., Limited, Toronto, Ont.

W. N. U. 1583

## VETERANS READY TO FORM BRITISH LEGION IN CANADA

Ottawa.—An organization of veterans of the Great War, to be known as the British Legion in Canada, is expected to grow out of the action of the Great War Veterans' Association, which, in annual convention here, unanimously adopted a resolution, placing its assets, totalling approximately \$8,000,000, and membership of about 80,000 at the disposal of Field Marshal Earl Haig, in accordance with the expressed wishes of the former commander of the British armies in France for complete unity among Canadian ex-service men.

While the identity of the G.W.V.A., which has been the senior ex-soldiers' organization in existence since the armistice, would be submerged by the proposed formation of a legion of all war veterans' organizations, the guarantee is asked that in the event of Earl Haig concurring in the proposal, the ideal of the G.W.V.A. be preserved, that the organization will not be allowed to disintegrate during the transition period, which is not to exceed one year, and that the adjustment bureau of veterans be not impaired.

## Amend Temperance Act

Bill to Amend Canada Temperance Act Goes to the Senate

Ottawa.—The bill to amend the Canada Temperance Act has passed all stages of the House of Commons. It now goes to the senate.

The bill chiefly affects the province of British Columbia and will give that province the right to prohibit importation of liquor into the province except for medicinal, sacramental and industrial purposes.

When the bill came up, considerable opposition developed from the Conservative benches. Brig.-Gen. J. A. Clark, of Burrard, B.C., and George Black, of the Yukon, objected that the bill was aimed chiefly at private citizens and not at export houses.

A. W. Neill, independent, Comox-Alberni, gave hearty support to the bill. He said the liquor was being brought into British Columbia, ostensibly for export, and no excise was paid. It was shipped a few miles out to sea, smuggled back and bootleggers sold on a large scale in the province, at prices which the provincial liquor commission could not compete with.

## Will Evacuate Ruhr August Sixteenth

Withdrawal of Franco-Belgian Troops Will Be Speeded Up

Paris.—The Franco-Belgian armies and technicians will evacuate the Ruhr by August 16. The French cabinet approved the plan which will complete the withdrawal by that date, just one year after the London agreement whereby the Dawes plan and evacuation were determined upon.

Gradual withdrawal of Franco-Belgian troops has been in progress for months, and this process will be accelerated to clear the Ruhr within the specified time.

## Prince Inspects School Children

Johannesburg.—The greatest gathering of school children ever brought together in South Africa was reviewed by the Prince of Wales. It is estimated that the children numbered 35,000. It took the Prince a good half hour of hard walking in and out of the lines of the children to inspect them.

In spite of the great strain, the Prince is maintaining perfect health. After the inspection of the school children he visited the Turfentine race course.

## Arabs Want Supervision By League

Geneva.—Reports have reached Geneva that a strong movement is taking place at Tangier to place the city under supervision of the League of Nations, somewhat similarly to Danzig. The thousands of residents, chiefly Arabs, are signing a petition to that end, as they are not satisfied with the operation of the existing international regime.

## Wheat Prices Hinge On Canada's Surplus

Chicago.—The world's price level for wheat will be determined largely by the amount of wheat Canada will have available for export this year in the opinion of S. C. Harris, a prominent member of the Chicago board of trade. "We believe that the Canadian situation will have the largest single influence on the world price of wheat," Mr. Harris declared. "We feel that domestic prices will hinge to a great extent upon the spring out-turn. Accordingly, we think it logical to state that we are in a period of doubt until these crops are made." Early reports from the Canadian northwest indicate a larger crop than last year, but not so large as that of 1923. The United States crop will be below that of last year.

## Saskatchewan Livestock Pool

Investigating Committee Hold Meeting In Winnipeg For Interchange Of Information

Winnipeg.—The Saskatchewan livestock pool investigation committee met the stockyards interests at a meeting here, at which an interchange of information took place.

W. Waldron, Regina, secretary of the committee; R. A. Wright, Drinkwater, representing Saskatchewan livestock board; E. Evans, of the Moose Jaw stockyards; and Hon. George Langley, chairman of the committee, attended the meeting, which was held at the livestock exchange.

J. C. Staples, president of the livestock exchange, expressed the opinion that no great harm was done by packers who bought in the country as well as the open market, although harm might result if this was carried to an extreme. He complained that a glut on the market might last two or three days and that he knew of no way to prevent this. Wiring the farmers not to ship had no effect, as they shipped anyway. J. C. Dohan, of the pool, corroborated this statement later. Mr. Dohan expressed the opinion that the pool served the farmer better than the commission man. He pointed out that the profits lay in sorting the loads which always sold better than the separate animal, and in choosing the right market for each type.

## Security Discussions

Premiers of German Federated States To Talk Matter Over

Berlin.—While numerous government departments have been studying the French reply to the German security pact proposal, active political discussion will not begin until the premiers of the Federated German States have been summoned to meet here.

Legal authorities, who have gone over the French note, find one of the greatest obstacles in the question of how to bring the French suggestions within the scope of the League of Nations covenant.

France's proposal that she act as guarantor for the powers along Germany's eastern frontier, is considered by those German Liberals who have consistently urged that Germany join the league, as nothing short of an affront to the league. Adoption of such a plan, they argue, would determine the whole league structure.

## Shameen In State Of Siege

Canton Foreign Settlement Is Now Prepared For Emergencies

Canton.—Shameen, the artificial island which is the Canton foreign settlement, is in a state of siege.

Two gunboats, one British and one French, hold commanding positions in the creek separating Shameen from the city. All approaches to the island were fortified with piled-up sandbags and quickfiring guns, testifying to the preparedness of the foreign forces for emergencies.

## Had Lean Year

Washington.—The marriage license clerks and parsons in four American counties had a very lean year in 1923, the census bureau reports. In Grant county, Kansas, Muno county, California, Dolores county, Colorado and Owyhee county, Idaho, not one marriage license was issued.

## LABOR TROUBLES ARE PENDING NOW IN BRITAIN

London.—The prolonged trade depression and consequent steadily mounting unemployment in Great Britain, which have long been subjects of grave comment, now have reached a point where a crisis is foreseen.

The Laborites mostly put the blame on the government, which they accuse of doing nothing; the employers cite high wages, and short hours, as among the chief causes of the trouble, while the government ministers seem to adhere to the view that they can only undertake active interference, at the request of both the employers and workers.

The situation came to a head with the closing of a joint inquiry by the operators and miners' representatives into the position of the coal industry, which has been one of the worst sufferers from the depression. The owners announced they would give formal notice of their intention to terminate the present wage agreement at the end of July, and also demanding resumption of the eight-hour working day, instead of the seven hours now legal for miners.

## Want Action On Coal Rate

Ontario Aroused Over Cancellation Of Reduced Rate on Special Shipments

Toronto.—Cancellation by the Canadian National Railways of all the arrangements by which Ontario was to have received a 25,000-ton experimental shipment of Alberta coal has aroused not only the Ontario Government, but civic and trades organizations as well, to such an extent that demand was made upon the government that they support the appearance of a deputation before Sir Henry Thornton in Montreal.

Following the appearance before the Ontario cabinet of James Walsh, of the Canadian Manufacturers' Association; H. B. Climes, general manager of the U.F.O.; and Thomas Marshall, of the board of trade, and numerous others, Hon. George S. Henry, acting premier, dispatched the following wire to the C.N.R. president:

"Large deputation of Ontario representing the government of the province and the various interests, desire interview with you regarding movement of Alberta coal for distribution in this province. Pleased to have date arranged as soon as possible."

## Soviets Irrigation Project

Leninkan, Armenia.—Soviet's first national irrigation project, comprising a huge dam and 40 miles of canals, has been opened. The irrigation system was constructed largely by refugee labor. It will convert 50,000 acres of barren land into fertile agricultural and grazing areas.

The canals involved the cutting of a tunnel through two miles of mountains and three years' labor.

## Amundsen Still Hopes To Fly Over Pole

King's Bay, Spitzbergen.—Roald Amundsen and the other members of the expedition which recently made an ineffectual attempt to reach the North Pole by aeroplane from Spitzbergen, have returned to Oslo, Norway. They took with them the seaplane which brought them back from the Arctic Circle to Spitzbergen. Amundsen told the Associated Press that he believed land exists near the North Pole on the Canadian side. He looks upon the expedition just ended as experimental, his dream for years having been to make a flight over the pole, landing in Alaska. For this project he had now gathered much additional and valuable knowledge.

## Medical Men Meet

Fifty-sixth Annual Meeting of Canadian Medical Association At Regina

Regina.—With addresses of welcome from Hon. J. M. Ulrich, representing Saskatchewan, and from Mayor Mason on behalf of the City of Regina, and with greetings from official representatives of the British, China, Newfoundland and American Medical Associations, the fifty-sixth annual meeting of the Canadian Medical Association was officially opened in the Normal School here.

In attendance were about three hundred delegates from every province in the Dominion, from the Far East, the United States and from the British Isles, representing every branch of the profession.

This meeting of professional men from so many parts of the world, said Mr. Ulrich, would be instrumental in bringing about better understanding of the problems to be faced by all. The visitors, he said, were assured of a royal welcome on the part of the province of Saskatchewan.

A similar enthusiastic welcome was extended to the delegates by Mayor Mason, who spoke for the City of Regina.

## Stop Traffic In Titles

Move In Britain To End Titular Honors In Return For Money

London.—The long promised government bill, making it an illegal offence to obtain titular honors in return for money payments, was introduced in the House of Commons by the Marquis of Salisbury, Lord Privy Seal.

The question of trafficking in titles came up in the House of Lords early in May, when the Marquis of Salisbury, in answer to a question which had been raised by the Earl of Selborne, said the government proposed to introduce a bill this year with the object of making an attempt to render traffic in honors illegal, but he feared the time for the passage of the bill through the House of Commons could not be found this season.

## PROPOSES TWO WESTERN MEN ON RAIL BOARD

Ottawa.—Right Hon. George P. Graham, minister of railways and canals, expressed the opinion in the House of Commons that the board of railway commissioners was rather too large and unwieldy. A vote of \$239,359 for maintenance and operation of the board was under consideration. G. G. Coote, Progressive, McLeod, asked whether the government proposed to increase the number of commissioners.

Mr. Graham replied that in his opinion the board was, if anything, too large at present. There was no provision in the estimates for an increase in the number of commissioners, but he thought that some readjustment, which would give the west more adequate representation, might be feasible. This question was a large one, and any change in the constitution of the board would require legislation.

Mr. Coote said he would like to see the board more representative of Canada as a whole. The west now has only one representative on the board and, with the Crow's Nest Pass agreement cancelled, would be completely at the mercy of the board. He asked the minister if he thought the west was likely to receive justice at the hands of the board.

Mr. Graham replied that the question of having another western representative on the board was well worthy of consideration. He did not admit that the west would be treated unjustly by the board, as at present constituted, but a western man might bring to the board a somewhat different point of view.

## Clears Up Mystery

Discover Remains of Members of Stefansson Polar Expedition

New York.—Another mystery of the Polar region was solved when H. A. Snow, big game hunter and explorer, just returned from a two years photographic exploration of the Arctic regions, announced the discovery of the remains of missing members of Viljalmur Stefansson's North Pole expedition in 1914, on Herald Island.

Snow's discovery clears up the eleven-year-old mystery of the fate of the five members of the crew, one of the two parties in which the expedition was divided, who quit the ice-locked and sinking Karluk and started back to civilization.

The first party, led by Stefansson, completed the long trek after terrific hardships. The other party, led by the ship's doctor, was never heard from, and relief expeditions found no trace of it.

Snow declared he came upon the remains while taking pictures on Herald Island, which is about sixty-five miles from the spot where the Karluk was lost. He believes the entire party perished of exposure and starvation.

## Has Had Successful Year

Reports Show Weekly Press Association Made Good Progress

Winnipeg.—The accomplishments, activities and financial affairs of the Canadian Weekly Newspapers' Association for the past year, were fully dealt with at the opening of the organization's fifth annual convention here, and in all reports submitted, good progress was recorded. Four hundred delegates, representing all parts of the Dominion, as well as Newfoundland, were welcomed to the city by Mayor Ralph H. Webb, and the session was presided over by Lorne A. Eddy, of The Telescope, Walkerton, Ont., president.

## Motor Bus Causes Strike

Shanghai.—The advent of the motor bus in China has caused a strike of 4,000 riksha men in Nanking. They are protesting the starting of a bus service by the city and have attempted to block traffic by placing obstacles in the streets.

Hong Kong.—Britishers employed on the Canton-Kowloon Railway, arriving here said they had been warned privately by Chinese friends to seek safety, because "the Chinese are determined to kill one foreigner for every Chinese."

## Aristocratic Four-footed Immigrant

This highly bred spaniel dog was raised by the Duke of Hamilton and is valued at \$700. He is the winner of many prizes and was despatched from Glasgow by the Dominion Express Company on the Canadian Pacific liner, "Metagama," to Canada. He is going to a well-known sporting gentleman of Winnipeg and looks as though he will not leave many chances for prizes in the dog shows of the west. However high his breeding he is evidently not too proud to be of assistance to fellow-immigrants and is here seen carrying a useful bit of information in the form of a placard as to money orders.

## Municipal Co-operative Hail Insurance.

Here are facts that will pay the farmer—and pay him well—to consider.

That in the last six years the farmers' own co-operative plan, The Municipal Hail Insurance, carried 57 per cent of the total hail insurance written in Alberta.

That out of every dollar hail insurance tax imposed under the Municipal Hail Insurance plan, 85 cents was returned to the farmer in payment of losses, 8 1-3 cents went to the reserve fund and 6 2-3 cents paid all costs of administration.

**Support your own co-operative plan.**

Application Forms supplied and full information given on request to your Municipal Sec.-Treasurer.

## Beautiful Fisher Bodies on all Closed Models!

**T**HE new Chevrolet closed models have new Fisher bodies more beautiful, more sturdy than ever before. They possess new features of construction such as you find only on the finest cars built.

Streamline design with cowl lights and new design, nickel finish radiator—finished in beautiful colors of Duco—coupe, coach and sedan have low pressure tires. You must see these cars to fully appreciate their unusual value.

Touring \$735 Roadster \$735 Coupe \$995  
Coach \$1015 Sedan \$1165

All prices at Factory—Taxes Extra

### The Alberta Pool.

It must be a source of considerable satisfaction to the officials of the Alberta Pool to record the numerous contracts now being sent in from various districts. All reports agree the success of the movement is beyond anything that was anticipated, and it is now certain that if the canvassers will but maintain their efforts and systematically cover their respective areas the percentage of farmers signing up will be a large one. Here in Didsbury and we believe the same may be said of any district between Calgary and Edmonton at least, there have been several of our local farmers who realizing its possibilities have sacrificed their own individual interests and given of their time unselfishly to the pool movement.

It is a splendid spirit and it affords an example which may well be more generally adopted.

### Former Pastor Renews Acquaintanceship with Didsbury.

Pembroke, Ont., June 23, 1925.  
To the Pioneer, from  
Lockley Mission.

To our many friends, who were anxious to know something about the Ottawa Valley, and our trip:

We had a most pleasant and successful trip from Didsbury, Alberta, to Pembroke, Ontario. We travelled about 3,800 miles by rail and we all enjoyed the boat trip from Vancouver to Victoria and Seattle on the Princess Alice. We visited our educational institutions at Naperville, Ill., arrived at Kitchener, Ont., on May 12th, 8 a.m. Everybody happy! Here we bid farewell to Rev. W. B. Dengis and his family, and have not seen them since. We spent a few days in Western Ontario, calling on Rev. and Mrs. A. Clemens. We did not get to see all the friends we had planned to see, because of the limited time to reach our Mission Field on May 24th.

I was privileged to preach in our home town church at Ayton, Ont., May 17th a.m. and in Milverton at 7 p.m., where Rev. W. A. Helm is the pastor. Leaving Kitchener on May the 20th we motored by way of Hamilton, Toronto, Kingston, Prescott and Ottawa, where we spent a half day in the Commons and Senate chambers, leaving Ottawa at 12 o'clock a.m. We called on Rev. E. Burn, our P. E. at Arnprior, arriving at Pembroke at 6 o'clock on May 22nd. Here we were greeted and welcomed by the pleasant smiles of the Rev. A. E. Petch and family, and were made to feel at home again. Our entire trip was a real scenic route—Pembroke is beautifully situated on the Ottawa River and with its 9,000 population, its factories and large stores and good paved roads, is a very inviting place. We have good schools here, and the churches which we serve are in good order. We have mostly paved roads to travel to our appointments. The attendance at the service has been real good. This makes us hopeful for a blessed year of service. We shall always remember the mission field in the west. We have some pleasant memories of the work there, and wish you all, with your new Pastor, God's choicest blessings.

Fraternally yours,  
Rev. E. Bender and Family.

The dates for the School Fair Short Course winners in the Olds and Youngstown Agricultural School districts was announced for June 29-July 4 inclusive. Owing to departmental examinations extending over June 29th and 30th a number of the pupils found it would be impossible to enter the Short Course on the opening day. The date therefore has been changed to July 20-26 inclusive, for pupils of the territory mentioned.

## Here and There

Record catches of mackerel are reported from Yarmouth, N. S. and nearby fishing villages. One man at Cranberry Head took over 150 barrels of fish from one trap and another fisherman at Burns Point reported over seventy-five barrels from a single trap.

Thirteen ships with a total of 7988 head of Canadian cattle left Montreal during May and three more ships left during the first week of June. Canadian cattle are now stated to be in strong demand in the British market despite Irish and English competition.

The reconstructed Basilica at Ste. Anne de Beaupre which was destroyed by fire in 1923 will be open to the public on the second Sunday in September according to a recent report and it is expected that the huge pilgrimages to the famous shrine will shortly be resumed.

A remarkable wave of interest in Canada is sweeping Great Britain at the present time and all sorts of information is being sought by British firms as to conditions in the Dominion according to F. W. Mottley superintendent of the Dominion Express Company of Canada for Europe who arrived here recently for a trip across the country.

Canada's third largest industry, its tourist traffic showed an increase of 80,000 in the National Parks for 1924, according to a report issued by Commissioner J. B. Harkin. Banff and Lake Louise, in the Rocky Mountains, showed a combined advance of 15,000 visitors. At Banff 1,693 camping permits were issued.

Robert E. Barlow, manager of Walter Hagen, announces that the British Open Championship winner will make a golf tour of Western Canada this summer visiting Winnipeg, Regina, Calgary and the famous Rocky Mountain course at Banff. Hagen has won the British Open Championship twice and the United States Open Championship once.

Arrangements have been completed for staging the biggest Indian Pow-wow ever held on the North American Continent at Macleod, Alberta, early in July. Thousands of Indians from the Bloods, Blackfeet, Peigans, Crows, Crees, Stoney, Sioux and representatives from the Six Nations, in the East will take part in the historic and picturesque pageant.

A Canadian Pacific Railway freight train was recently held up near Lemberg, Sask., by a swarm of tent caterpillars which interfered with the functioning of the drive wheels on the greasy rails, where the insects had gathered in millions. All efforts to plow through or remove the swarm were unsuccessful and no progress could be made until half the cars were discharged.

Preparations are practically complete for the 1925 Calgary Exhibition and Stampede. It is anticipated that the stampede this year will be the biggest ever held. It has been extensively advertised in Canada and the United States, and a large number of inquiries have been received from interested parties, who anticipate being present. Entries have been received from all the best known riders and ropers on the continent, and the large number of valuable prizes offered for competition ensures that the spectator will see the best that can be offered in the way of broncho breaking, roping, wild steer riding, etc.

Edward G. Taylor, one of the best known game fishermen on the continent is authority for the statement that New Brunswick is losing none of its lure as a fisherman's paradise. Just back from a trip to the Caine River, N.B., Mr. Taylor said salmon were steadily increasing in numbers and size in the province. He added that he had caught on this trip a salmon 42 inches long and weighing 24 lbs. In the autumn such a fish would likely weigh up to fifty pounds.

## LOCAL MARKETS

2p26

**Found**—Necklace with crucifix attached. Apply Chief of Police.

**FOR SALE**—Large Herbert Raspberries per case \$2.50. Send money with order (express charges extra) to Mrs. A. Murray, Salmon Arm, R2, B.C.

### FARM FOR SALE

W. 1-2 35-31-1, W. 5th Meridian, Alberta, subject to taxes for current year.

By public Auction at J. W. Phillips' office in the Town of Didsbury, in the Province of Alberta, on Saturday, the 8th day of July, 1925, at 2 o'clock p.m. by J. W. Phillips, Auctioneer.

This is a 320 acre farm about 7 miles from Didsbury, 130 acres are presently in good state of cultivation; there are 4 miles of fencing; house 14x24 feet with addition 12x14 feet; granary; stable and henhouse. The soil is a black loam with clay subsoil.

The property will be offered for sale at upset price of \$8300.00, at which sum bidding will start, and purchaser will not be entitled to growing crop.

**TERMS:** 10% cash; 15% within 60 days without interest, and balance in 3 equal installments in 6, 12 and 18 months with interest at 8% per annum, or if the purchaser desires, full payment will be accepted within 60 days without interest. All payments except the deposit to be made into court.

In all other respects standing conditions of sale to apply.

Possession will be given on the 15th day of October, 1925.

Action No. 23508; Supreme Court, Calgary.

Further particulars may be obtained from McCleod, Robertson, Smith & Co. Solicitors for the plaintiff, Calgary, Alberta. Refer to File No. 31169-WGE.

Dated at Calgary, Alberta, the 15th day of June, 1925.

APPROVED: L. F. CLARRY, M. C. A. G. A. CLOWES, Clerk in Chambers.

Everyone prepare for the local exhibition.

### ALBERTA FAIR DATES

The following is a list of the Fairs to be held in this district this year, with the name of the secretary of each:

Wetaskiwin—Aug. 7-8; C. D. Smith.  
Calgary—July 6-11; E. L. Richardson.  
Camrose—Aug. 10-12; D. M. Omond.  
Edmonton—July 13-18; W. J. Stark.

## Calgary Exhibition Opens next Monday July 6th.

On the afternoon of Monday, July 6th, Hon. Chas. Stewart, Minister of the Interior, will officially open the greatest Calgary Exhibition, Jubilee and Stampede ever held. The week will be opened at 9:30 that morning with the mammoth Historical Pageant five miles long. Owing to the phenomenal crop conditions, the great interest surrounding the oil development in Alberta, the improved roads to Banff, Canada's famous mountain resort, and the most exceptional programme provided at the Calgary Exhibition, Jubilee and Stampede, Calgary will entertain the largest crowd from near and distant points that has ever been within the city limits.

The Historical Pageant and Stampede Parade, in addition to giving a most realistic history of the past fifty years development of Alberta, will present a wonderful exhibition of Alberta bred horses. In addition to the big team of 36 horses hauling 10 wagon loads of wheat, which is being sent to Calgary by the farmers of Gleichen, practically all of the floats will be drawn by four and six horse teams, and with about 25 chuck wagon outfits and the cowboys, it is expected that there will be between 1200 and 1500 horses in the parade.

The City has made special arrangements for an overflow automobile camp, and there are special passenger fares in force from Alberta, Saskatchewan and British Columbia main-land points.

## FORD TROUBLES and HOW TO AVOID THEM

Most of the engine troubles you have are the result of neglecting to take a few simple precautions. Few owners give their cars the regular care they should receive. About an hour a week is all the time it takes to give a car the attention it needs, and will save you many hours delay on the road and dollars in repair bills.

### Lubrication

This is perhaps the most important thing that needs to be attended to regularly. Use the correct grade Imperial Polarine Motor Oils designed for the Ford car. The oil in a Ford lubricates the clutch and transmission as well as the cylinders and bearings. If it is too heavy, it causes the clutch to stick and makes the engine very hard to start. If on the other hand the oil is too thin, it has not sufficient body to lubricate the cylinders and bearings properly.

Once every 600-800 miles drain off all the old oil. This is best done just after coming in from a run when the engine is warm. Unscrew the drain plug and allow the old oil to drain off, then replace the plug. Now pour into the crankcase some Imperial Flushing Oil, then after turning OFF the Ignition Switch, turn the engine over a few times with the hand crank, or about a minute with the Starter. This will swirl the mixture all around the inside of the engine and wash down the grit and dirt. Now remove the drain plug and after blocking the rear wheels securely, jack up the front axle as high as possible to drain thoroughly. Then replace plug and fill up with a fresh supply of oil. Before you start the engine, turn it over smartly twenty or thirty times to get the fresh oil worked into the cylinder walls and bearings.

### Gasoline System

Once a month drain off about half a pint of gasoline from the Sediment Bulb at the bottom of the gasoline tank, and a little from the drain cock at the bottom of the Carburetor. Water and dirt collect in the Sediment Bulb and unless you draw it off occasionally, it is liable to cause trouble. In winter time, the water may sometimes freeze in the bottom of the bulb or in the Carburetor Float Chamber, and will have to be thawed out with hot cloths. Once or twice a season, disconnect the gasoline pipe at the sediment bulb and screw off the cap at the side of the bulb, then remove the wire screen and see that it is clear.

### Magneto Contact

About once a month, remove the Magneto Contact to see that there is no fluff or transmission band ravelings collected round it. Look in the hole out of which you took the Contact and see that it is clean. This fluff collects and causes misfiring and sometimes a complete stop. This simple precaution five minutes once a month may save you a lot of trouble.

### Spark Plugs

Once every 800 miles remove all Spark Plugs and set the gaps. One of the best ways to clean spark plugs, is to soak them in a mixture of kerosene and alcohol all night, then in the morning the carbon on the porcelain can be rubbed off with a piece of rag. NEVER use emery cloth or sand paper to clean the porcelain. It has a highly glazed surface that is easily scratched. When the glaze becomes roughened, it quickly oils up again. The points of the plug and the metal parts can, of course be cleaned with emery cloth. The gap in the plugs should be 1/32" or the thickness of a WORN dime apart. If the points are set TOO CLOSE, the engine will misfire at LOW SPEEDS or when accelerating from low speeds. If the gap is TOO WIDE, the engine will misfire principally at HIGH SPEEDS.

### Valves

The valves on a Ford Car are examined in just the same way as on any other car, the only difference is that the clearance on a Ford must never be less than 1/64" nor more than 1/32".

### Battery

Keep the battery terminals clean and tight, and make sure that the battery is wedged firmly in its case and cannot shake about. If the terminals are corroded, clean them with a little ammonia, then smear with vaseline. Once a week in summer and every two weeks in winter take out the plugs on top of the battery and test each cell with hydrometer.

## Reduced Price n Flour

Through the month of July we will offer our low grade Flour at a reduced price. This Flour is of extra quality for topping out hogs for market.

Also SPECIAL PASTRY FLOUR will be offered at reduced prices.

**ROSEBUD FLOUR MILLS**  
M. WEBER

Squeeze the bulb then insert the nozzle through one of the holes and draw some of the electrolyte into the hydrometer, enough to float the indicator inside. A fully charged cell should read between 1,280 and 1,300. If the reading is below 1,250, have the battery charged at once. After testing, use the hydrometer to fill each cell to within 1/2" above the plates with DISTILLED WATER.

Building permits issued in Canada during the first quarter of 1925 were 10.2% and 1.2% greater than in the first three months of 1924 and 1923, respectively. There were also 5.5% greater than in the first quarter of 1923, 46.5% higher than in 1921 and 4.3% above the 1920 total. The aggregate value of building permits issued for the first quarter of 1925 was \$19,872,637, compared with \$17,846,969 for 1924 and \$19,441,169 for 1923.

## DUTCH SETTLERS FOR WEST

A FAMILY of Dutch settlers recently arrived in Western Canada over Canadian National Railways after crossing from Antwerp on the S.S. Zeeland of the Red Star Line. Many settlers of this type are moving to the prairie provinces during the present season and they give promise of becoming splendid farmers.

## A Romance of the Spanish Main CAPTAIN BLOOD RAFAEL SABATINI

Copyrighted, 1922, by Rafael Sabatini.  
"CAPTAIN BLOOD," a Vitaphone picture with J. Warren Kerrigan  
in the title role, is an adaptation of this thrilling novel.

### CHAPTER XXV.—Continued.

Within an hour, the water-casks at least replenished and stowed aboard, the Arabella and the Elizabeth put to sea upon that angry chase.

"What now, Peter?" cried the young Jeremy Pitt. "Lord, man, what is there here to fret you. Surely 'tisn't the thought of Rivalro!" "No," said Blood quickly. "And for once he was communicative. It may well be that he must vent the thing that oppressed him or be driven mad by it. And Pitt, after all, was his friend and loved him, and so, a proper man for confidences. 'But if she knew! If she knew! Oh God! I had thought to have done with piracy; thought to have done with it for ever. Yet here have I been committed by this scoundrel to the worst piracy that ever I was guilty of. Think of Cartagena! Think of the hell those devils will be making of it now! And I must have that on my soul!'"

Setting a course for Hispaniola, since they judged that thither must Rivalro go to rest before attempting to cross to France, the Arabella and the Elizabeth ploughed briskly northward with a moderately favourable wind for two days and nights without ever catching a glimpse of their quarry. The third dawn brought with it a haze which circumscribed their range of vision to something between two and three miles, and deepened their growing vexation and their apprehension that M. de Rivalro might escape them altogether.

They had Jamaica on their larboard beam some thirty miles to westward, and, indeed, away to the northwest, faintly visible as a bank of clouds, appeared the great ridge of the Blue Mountains whose peaks were thrust into the clear upper air above the low-lying haze. The wind was westerly, and it bore to their ears a booming sound which in less experienced ears might have passed for the breaking of surf upon a lee shore.

"Guns!" said Pitt, who stood with Blood upon the quarter-deck. Blood nodded, listening.

"Ten miles away, perhaps fifteen—somewhere off Port Royal, I should judge," Pitt added. Then he looked at his captain. "Does it concern us?" he asked.

"Guns off Port Royal . . . that should argue Colonel Bishop at work. I think it may concern us. Anyway, we'll stand in to investigate."

Close-hauled they tacked aweath, guided by the sound of combat, for an hour, perhaps. Then, as, telescope to his eye, Blood raked the haze, the guns abruptly ceased. They held to their course, nevertheless, with all hands on deck, eagerly, anxiously scanning the sea ahead. And presently an object loomed into view, which soon defined itself for a great ship on fire. As the Arabella with the Elizabeth following closely raced nearer on their northwesterly tack, the outlines of the blazing vessel grew clearer.

"An English ship!" he cried.

He scanned the seas for the conqueror in the battle of which this grim evidence was added to that of the sounds they had heard, and then at last, as they drew closer to the doomed vessel, they made out the shadowy outlines of three tall ships, some three or four miles away, standing in toward Port Royal. Pitt, who through the telescope was examining the receding squadron, observed things apparent only to the eye of the trained mariner, and made the incredible announcement that the largest of these three vessels was Rivalro's Victrolense. They took in sail and bore to as they came up with the drifting

boats, laden to capacity with survivors.

### CHAPTER XXVI.

#### The Service of King William

One of the boats bumped alongside the Arabella, and up the entrance ladder came first a slight, spruce little gentleman in a coat of mulberry satin laced with gold, whose wizened, yellow, rather peevish face was framed in a heavy black periwig. His modish and costly apparel had nowise suffered by the adventure through which he had passed, and he carried himself with the easy assurance of a man of rank. He was closely followed by one who in every particular, save that of age, was the physical opposite, corpulent in a brawny, vigorous way, with a full, round, weather-beaten face whose mouth was humorous and whose eyes were blue and twinkling.

As the little man stepped from the ladder into the waist, whither Captain Blood had gone to receive him, his sharp, ferrety, dark eyes swept the uncouth ranks of the assembled crew of the Arabella.

"And where the devil may I be now?" he demanded irritably. "Are you English, or what the devil are you?"

"Myself, I have the honour to be Irish, sir. My name is Blood, and this is my ship the Arabella, all very much at your service."

"Damm! What's to laugh at, you porpoise," spluttered mulberry-coat.

"Blood!" shrieked the little man. "O 'Blood! A pirate!" He swung to the Colossus who followed him—"A damned pirate, van der Kuylen. Rend my vitals, but we're come from Seylla to Charybdis."

"So?" said the other gutturally, and again, "So." Then the humour of it took him, and he yielded to it.

"Damm! What's to laugh at, you porpoise?" spluttered mulberry-coat. "A fine tale this'll make at home! Admiral van der Kuylen first loses his fleet in the night, then has his flagship fired under him by a French squadron, and ends all by being captured by a pirate. I'm glad you find it matter for laughter. Since for my sins I happen to be with you, I'm damned if I do."

"There's a misapprehension, if I may make so bold as to point it out," put in Blood quietly. "You are not captured, gentlemen; you are rescued. When you realize it, perhaps it will occur to you to acknowledge the hospitality I am offering you. It may be poor, but it is the best at my disposal."

"Damm. Do you permit yourself to be ironical?" he disapproved him. "I am Lord Willoughby, King William's Governor-General of the West Indies, and this is Admiral van der Kuylen, commander of His Majesty's West Indian fleet, at present mislaid somewhere in this damned Caribbean Sea."

"King William," quoth Blood. "And who may be King William, and of what may he be King?"

"I am alluding to His Majesty King William III.—William of Orange—who, with Queen Mary, has been ruling England for two months and more."

"Dye mean, sir, that they've roused themselves at home, and kicked out that scoundrel James and his gang of ruffians?"

"Blife! Hadn't you heard? Where the devil have you been at all?"

Briefly he gave an account. After that, with renewed assurances that aboard his ship they should be honourably treated, Captain Blood led the Governor-General and the Admiral to his cabin, what time the work of rescue went on.

"Go home, if you will," said his lordship when comfortable. Here is a great chance for you, since you declare yourself sick of piracy. Should you choose to serve King William out here during his war, your knowledge of the West Indies should render you a very valuable servant to His Majesty's Government, which you would not find ungrateful. You should consider it. Damm, sir, I repeat: it is a great chance you are given."

Pitt came in to report that the work of rescue was at an end, and the men picked up—some forty-five in all—safe aboard the two buccaneer ships. He asked for orders. Blood rose.

"I am negligent of your lordship's concerns in my consideration of my own. You'll be wishing me to land you at Port Royal."

"At Port Royal?" The little man squirmed wrathfully on his seat. Wrathfully and at length he informed Blood that they had put into Port Royal last evening to find its Deputy-Governor absent. "He had gone on some wildgoose chase to Tortuga after buccaneers, taking the whole of the fleet with him."

"Is Rivalro aware of this?" Blood cried sharply.

It was the Dutch Admiral who answered him. "Would he go here if he were not? M. de Rivalro he takes some of our men prisoners. Berhabs dey dell him. Berhabs he make dem tell. Id is a great obbordundity."

(To be continued)

### Honors Memory Of Paul Kruger

#### Prince Places Wreath On Monument Of Britain's One-time Foe

The Prince of Wales placed a wreath on the monument of Paul Kruger—"Oom Paul"—who was credited with being the soul of the policy that brought on the Boer War of 1899-1902. He was president of the provisional government after the war against Britain in 1881, and in 1883 was elected president of the Transvaal Republic. He held that office as long as the Republic stood.

The Prince paid his tribute to the empire's former enemy without any previous announcement or ceremony. He was accompanied by only two members of his staff.

The climax to the Prince's visit to the Transvaal came when Pretoria was superbly illuminated and a symbolic procession was held in his honor. He was entertained at a dinner given by the administrator to 250 representatives from different parts of the Transvaal.

The Prince, in the course of a speech, expressed the hope of some day being able to visit South Africa again. "Gentlemen," he declared, "it is no polite platitude when I say I will do my best to come back."

### Religious Tolerance in Germany

President Von Hindenburg has promised to foster the spirit of religious tolerance in Germany, and conscientiously to respect and protect all creeds. His declaration was made after he had received representatives of the inter-denominational church alliance, composed of German Evangelical, Catholic and Jewish delegations who called to congratulate him upon his assumption of the German presidency.

But for the need of horrible examples many a man's usefulness would never be properly listed.

### She Said He Was "Incorrigible"

By Marjorie Bradford, Social Service Council of Canada

A woman brought her son into one of our Canadian juvenile courts a short time ago because, as she termed it, the boy was incorrigible. He would not stay in school and was getting his parents into continual difficulty.

When the boy gave his side of the story to the judge he said that school always gave him a headache.

The boy, on being examined by the court doctor, was discovered to be totally blind in one eye with the sight of the other already seriously impaired. And this poor ignorant mother thought he was "incorrigible." The boy was immediately given treatment which saved and even improved the sight of his eye. If the condition had been known in time the sight of his other eye might also have been saved.

Of 24,000,000 school children in the United States, 6,000,000 are retarded in their studies. And of those 6,000,000 retarded children, 2,000,000 are retarded because of defective eyesight. It is estimated that defective eyesight among school children costs American taxpayers \$130,000,000 a year.

Similar figures for Canada are not available but they are estimated to be relatively the same. That is more than 8 per cent. of our Canadian school children are suffering under a mental handicap because of defective eyesight. I wonder how many of these children have been adjudged stupid or "incorrigible?"

### Admiral Sturdee's White Feather

#### Naval Hero Equipped As Slacker By Ultra-Patriotic Woman

Admiral Sir Doveton Sturdee, who died in England this spring, was the admiral who chased and defeated the squadron of Admiral Von Spee off the Falkland Islands, the second year of the war. When, after that battle, he returned to England early in 1916, he followed the custom of every other officer of his time and went straight into mufti. At that time ultra-patriotic young ladies were infesting the streets of London and other English cities, thrusting white feathers into the hands of able-bodied men who seemed to be shirking their responsibilities in not volunteering for service. As Sturdee was walking down Whitehall on his way to the admiralty, he was held up by one of these young women, who gravely presented him with a white feather, which she deftly thrust into his coat lapel, and exhorted him to turn into the adjoining recruiting office at Scotland Yard without delay. Thus equipped as a poltroon, the hero of the biggest naval victory since Trafalgar marched down Whitehall to talk over the details of the affair with his colleagues of the admiralty.—Argonaut.

### The Village Blacksmith

#### Effort Being Made In Britain To Prevent Passing Of This Picturesque Figure

Strenuous efforts are being made in agricultural districts of England to save the picturesque old-fashioned village blacksmith from passing into oblivion. The smith of England today is not "tolling and rejoicing" to draw undue attention to himself, but is "sorrowing" a great deal more than in the days when Longfellow idealized him—all because of the advent of the automobile and the motor tractor.

In their desire to "save" the village blacksmith the Hertfordshire county council members announced recently particulars of a plan designed to keep alive the decaying industry which has been so hard hit by the modern organization of the big manufacturers and their agents who supply standardized parts of farm implements and machinery on lines of mass formation. The ministry of agriculture too, has become interested in the scheme to prevent the passing of the blacksmith and has agreed to co-operate in the movement.

### Natives In Congo Superstitious

The natives in the Congo region are firm believers in demons and witches. The number of people annually put to death owing to this horrible superstition is unknown, for the witch-doctors pursue their dreadful trade in secret, but it is believed to be very large, for no mercy is shown to anyone convicted of witchcraft.

Pig iron prices are off a dollar, maybe due to the supply of bride's biscuits coming in June.

### Submerged Village Re-appears

#### Roofs Of Swiss Houses Visible After 300 Years

After 300 years, a submerged Swiss village in the upper valley of the Saas has re-appeared, owing to the low level of the waters of Lake Atrona. The original catastrophe was caused by a landslide from the Monte Pozzoli, which destroyed 42 houses of the village of Antrona Piana, together with the inhabitants and their cattle. As a result of the landslide a lake was then formed, but owing to the waters now receding the roofs of the old dwellings are again visible.

### STOMACH TROUBLE DUE TO THIN BLOOD

#### It Usually Disappears When the Blood is Made Rich and Red

Thin blood is one of the most common causes of stomach trouble. It affects the digestion very quickly. The glands that furnish the digestive fluids are diminished in their activity, the stomach muscles are weakened and there is a loss of nerve force. In this state of health nothing will more quickly restore the appetite, digestion and normal nutrition than good, rich, red blood.

Dr. Williams' Pink Pills act directly on the blood, making it rich and red, and this enriched blood strengthens weak nerves, stimulates tired muscles and awakens to normal activity the glands that supply the digestive fluids. This is shown by an improved appetite, and soon the effect of these blood enriching pills is evident throughout the whole system. You find that what you eat does not distress you, and that you are vigorous instead of irritable and listless. If your appetite is feeble, if you have any of the distressing pains and symptoms of indigestion, you should at once take Dr. Williams' Pink Pills and profit by the better condition in which they will put your blood.

These pills are sold by all dealers in medicine, or you can get them by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### War and the Auto

In 1924, 19,000 human beings were killed and 450,000 were injured by the automobile in these United States. . . . This casualty toll of 469,000 Americans leveled by the automobile in the year 1924 is numerically 50 per cent. greater than was the total casualty toll for the American armies and navies in the nineteen months while the United States was at war with Germany.—Louisville Courier-Journal.

We didn't know a couple were married until we saw them yawning.

### PAINS IN BACK AND SIDES

#### Ended by Taking Lydia E. Pinkham's Vegetable Compound

Fusilier, Sask.—"For two or three days every so often I would have such pains in my back and sides that I could not do anything—could not even lie quietly in bed, and my head ached, too. I was this way about three years, but was worse after I was married. I was on a farm with not a house-nearer than five miles and there was not a person to advise me, as my folks live in Manitoba. My sister-in-law told me about Lydia E. Pinkham's Vegetable Compound and told me to try it. I took her advice and have been thankful for it ever since. After taking the medicine for three months I can say it has helped me a lot and I am doing fine. I am glad to recommend the Vegetable Compound to others and you may publish my testimonial."—Mrs. HELEN BALANOFF, Fusilier, Saskatchewan.

Often some slight trouble will cause a general upset of the system. Such symptoms as nervousness, painful times, irregularity, backache and headache indicate some form of female weakness. Women so bothered should give Lydia E. Pinkham's Vegetable Compound a trial. This dependable medicine has helped thousands of women and it is reasonable to expect that it will help you. Try it today. Your druggist sells this medicine.

### FEET ACHE?

Rub them well with Minard's and know what real foot comfort means.

## Hello Daddy—don't forget my Wrigley's

Slip a package in your pocket when you go home to-night.

Give the youngsters this wholesome, long-lasting sweet—for pleasure and benefit.

Use it yourself after smoking or when work drags. It's a great little freshener.

## WORLD HAPPENINGS BRIEFLY TOLD

June 21, was the 176th birthday of the City of Halifax. The event was observed June 22 by a civic and business holiday.

The Japanese Government has granted a subsidy of about \$250,000 to a school which will train Boy Scout leaders.

More than 500 British-born citizens have applied from Victoria, B.C., for admission to the United States during the fiscal year beginning July 1.

There are 472 persons employed in the various penitentiaries in Canada. It was stated in the House of Commons in answer to a question.

Germany's oldest public school teacher, who kept up his work until a short time before his death, died suddenly at the age of 103.

The Government of Mexico is prepared to spend \$50,000 a month to fight locusts in Vera Cruz, Caxaca and Chippapas, where the plague threatens to destroy the entire crop.

Official recount of the vote of Vancouver City ratepayers on annexation of South Vancouver, resulted in the majority against the proposal being increased from 109 to 116.

Twenty-five years ago a packet of sweet pea seeds were sent to a man at Sydney, Australia. This year the seeds were planted and are growing rapidly.

Ikakuplak, Copper Eskimo, is being returned to his native home at Coronation Gulf, under Constable Chitty, of the R.C.M.P., after serving a commuted term at Stony Mountain penitentiary for manslaughter.

The Labor members of the House of Commons have passed a resolution condemning the proposed security pact with France as not being calculated to secure Franco-German conciliation.

A bundle of appeals, proclamations and handbills, sent by aeroplane in the hope of enlisting German sympathy for the movement in China, were received by the Deutsche Allgemeine Zeitung from Peking University students.

## Shave In Comfort With Cuticura Shaving Stick

This delicately medicated anti-septic Shaving Stick produces a creamy lathering which enables tender-faced men to shave without any irritation, even twice daily. It leaves the skin smooth and fresh and makes shaving a pleasure. Cuticura Talcum is an ideal after-shaving powder.

Sample sent free by mail. Address: Canadian Shave Co., Ltd., Toronto, Ont. Cuticura Shaving Stick 25c.

W. N. U. 1563

## Talking Films

First Display is Now Being Made in Great Britain

Talking films are the latest attraction promised at the new Wembley exhibition. This is the first presentation of such films in Britain.

They are being shown in one of the conference halls, where they are being presented by Mr. R. B. Salisbury, in association with Messrs. de Forest Phonofilms, an all-British company, which owns all the British rights for the making of talking motion pictures. These pictures are made at the studio of the de Forest Company at Clapham.

The picture and the sound being recorded simultaneously are absolutely synchronized.

The future of the Phonofilm today is similar to that which faced the new art of the silent picture when it was first realized that in order to fulfil its mission as a means of entertainment and education, it must not follow blindly the path of the legitimate drama. An entirely new form of screen drama can now be worked out, taking advantage of the possibilities of introducing music and voice and appropriate acoustic effects.

It may be that soon printed titles will absolutely disappear and be replaced by a pleasant-voiced speaker announcing the next item. In the realms of comedy, news items, scenic effects, educational films, interviews with notable men, and in many other directions the future of the Phonofilm holds unlimited possibilities.

**Wretched from Asthma.** Strength of body and vigor of mind are inevitably impaired by the visitations of asthma. Who can live under the cloud of recurring attacks and keep body and mind at their full efficiency? Dr. J. D. Kellogg's Asthma Remedy dissipates the cloud by removing the cause. It does relieve. It does restore the sufferer to normal bodily trim and mental happiness.

## Does Your Baby Cry?

Is it nervous and restless during hot weather? If so—most likely his food is not agreeing with him. If you cannot nurse your baby, or if it does not gain upon your breast milk give him Borden's Eagle Brand Milk—the food that has successfully reared hundreds of thousands of babies. Easy to prepare—just add boiled water as directed.

In this paper from time to time you will find an advertisement of Borden's Eagle Brand Milk, a food that has raised more healthy babies than all the prepared infant foods combined. Cut out the advertisement and mail it to The Borden Company, Limited, Montreal, and they will send you, free of charge, instructions for feeding your baby, and a Baby Welfare Book and Baby Record Book. Or just write the company, mentioning this paper, and they will be sent.

**For Catarrh.**—It is one of the chief recommendations of Dr. Thomas' Electric Oil that it can be used internally with as much success as it can outwardly. Sufferers from catarrh will find that the Oil when used according to directions will give prompt relief. Many sufferers from this ailment have found relief in the Oil and have sent testimonials.

## Literary Progress In Canada

Canadian Literary Section One of the Features at Wembley

Interesting evidence that Canada is making progress not only along material lines, but in the world of letters, is found in the fact that a Canadian literary section is one of the features of the Canadian pavilion at the British Empire Exhibition. The exhibit represents both French-Canadian and English-Canadian literature from the earliest dates down to the publications of 1924.

## Amend Dairy Industry Act

A bill to amend the Dairy Industry Act, providing heavier penalties for infraction of the act, and eliminating weakness that have become apparent during its administration, was approved by a special committee of the senate on agriculture and forestry without amendment.

## Cold Storage Plant For Edmonton

Plans for a modern cold storage and creamery plant at Edmonton, involving an expenditure of possibly \$100,000, inclusive of equipment, are being made by the P. Burns Company. When the factory is completed, it will be possible to handle nine refrigerator cars of butter daily.

ST. C. 22-24

A Junior Party-frock

Each season the styles for children grow more fascinating. Designs and materials are chosen as thoughtfully as for grown-ups; and while the designs are more and more simple, they have gained in charm and individuality. Every little girl loves a party-frock, and No. 1032, of fine French voile, which comes in the most adorable colorings, and looks as light and filmy as chiffon, is sure to please her. The frock illustrated is a two-piece dress closing at the centre back, with short kimono sleeves tucked and seamed on shoulders, and three slightly circular flounces. It may have square or bateau neck, and is trimmed with lace edging or insertion. The pattern is cut in sizes 8 to 14 years, the 12-year size requiring 3 1/2 yards of 36-inch material and 2 1/2 yards of 5-inch ribbon for sash.

## Learning Western Ways

The Japanese are fast learning western ways. Several persons have been charged with fraud in an attempt to sell stock in a company which claimed to have a secret process for making silk from straw.

**Time has Tested It.**—Dr. Thomas' Electric Oil has been on the market upwards of fifty years and in that time it has proved a blessing to thousands. It is in high favor throughout Canada and its excellence has carried its fame beyond the seas. If it were double the price it would be a cheap liniment.

In the jungles of the Island of Sumatra lives a spider measuring over eight inches across the back and seventeen inches with legs spread out.

## OUR CROSSWORD PUZZLE

### Horizontal

- 1—A building or room for social meetings.
- 7—Pertaining to penalties.
- 13—Public notices.
- 14—Make loose.
- 15—A cutting tool.
- 16—Girl's name.
- 18—The tea plant.
- 20—River of France.
- 22—And (Latin).
- 24—A snake.
- 26—Man's name (abbr.).
- 27—A wooden shoe.
- 29—Thinks.
- 31—Cot.
- 32—Enclosure for swine.
- 33—Era.
- 34—Pure.
- 36—Sarcasm.
- 38—Pronoun.
- 39—Commits perjury.
- 42—Act.
- 44—Points of a fork.
- 46—A flower.
- 49—Urge.

### Vertical

- 1—Stops.
- 2—Sum up.
- 3—Magnitude.
- 4—Congealed water.
- 5—New Testament (abbr.).
- 6—Willow.
- 7—Level.
- 8—Ex officio (abbr.).
- 9—Negative.
- 10—Pale.
- 11—Shelter.
- 12—Complicates.
- 17—A union of two vowels forming a compound sound pronounced in one syllable.

- 20—Regular.
- 21—Finish.
- 22—A smooth flat surface.
- 24—Soft carbonated drinks.
- 25—Lacerates.
- 26—Repair.
- 28—Insect.

- 50—Beverage.
- 51—One.
- 53—Pronoun.
- 55—Pronoun.

## SUNDAY SCHOOL LESSON

JULY 5

### THE BEGINNING OF FOREIGN MISSIONS

Golden Text: And He said unto them, Go ye into all the world, and preach the gospel to the whole creation. Mark 16:15.

Lesson: Acts 12:25 to 13:12.

Devotional Reading: Isaiah 55:1-7.

### The Text Explained and Illumined

The first foreign missionaries and their dismissal service, verses 1-3.—In the church at Antioch there were many prophets and teachers, chief among whom was Barnabas. There were also Symeon the Black, an African, no doubt; Lucius of Cyrene, perhaps one of the original evangelists who established the church at Antioch, Acts 11:20; Manaen, the foster-brother of Herod the tetrarch; and Saul, possibly the latest to join the leaders in Antioch. The Herod referred to here was Herod Antipas, whom Jesus described as a "fox," Lk. 13:32, son of Herod the Great. According to Deissmann, "foster-brother" was a court title of honor, like the phrase "the friend of the king" used in the Old Testament. It is interesting to recall in this connection that Joanna, the wife of Chuzas, the steward of this same Herod, was also a follower of Christ, Lk. 8:3.

"In the days of the apostles, and as long as Christianity was a proscribed religion, the body of the membership of the Church consisted of the humbler and middle ranks of society. The wealthy and noble will always be few in comparison with others in the Church, for this is for no other reason, that there are fewer of them" (Dr. James Orr).

### Peter the Hermit

The bones of Peter the Hermit, one of the leading preachers of the first crusade, are reported to have been found at Huy, while the ground covering an ancient cloister was being levelled. Peter the Hermit, also called Peter of Amlens, was born about 1050 and died at Huy, Belgium, on July 11, 1115. He led the advance of the first crusade as far as Asia Minor in 1096.

### A Democratic Country

Surely Britain is the really democratic country. One of the most popular and respected of marchionesses spent part of her childhood in the workhouse; another, noted for her queenly beauty, at one time served in a shop.

Tell the wife you were where you were not so she will think you were not where you were.

## Rural Credits

Bill to Provide For Ten Million Dollars to Assist Agriculture

Hon. J. A. Robb, acting minister of finance, is bringing down a bill to provide for advances of not more than \$10,000,000 to the provinces for rural credits.

The bill will provide:

- 1—That the governor-in-council may authorize advances to anyone, one or more, of the provincial governments for the purpose of assisting agriculture by enabling the provinces to make long term loans to farmers.
- 2—That such advances shall be secured by the issue and delivery to the Dominion of bonds of the provinces.
- 3—That the aggregate of advances to be made by the Dominion shall not exceed \$10,000,000.

### Offers Minto Ranch

The Earl of Minto is offering for sale, through his London agents, his ranch in Alberta, adjoining the "E.P." ranch, owned by the Prince of Wales. It is stated that the Minto ranch provides capital shooting and fishing.

## AROUND THE TOWN

Miss Beveridge left for Calgary on Tuesday.

Chris. Mack is at High River this week attending the marriage of his son Elmer.

Mrs. Mueller returned on Tuesday from a visit to her daughter at Lethbridge.

Wanted a person to run a booth at Westcott sports on July 15th. Phone 1009.

Miss Mabel Sexsmith, who has been nursing at the hospital, has left for Blackie, Alberta.

T. J. McEwen arrived on Friday to assume his duties as teller in the Bank of Montreal.

W. T. R. Henderson of the Bank of Montreal, has been transferred temporarily to Lake Louise.

A. M. Bauman, a prominent farmer of the Mayton district, was a business visitor here last week.

Mrs. J. Clarke and daughter arrived on Sunday evening by car to take up their residence in Didsbury.

J. H. Leahy and E. S. Brown have both purchased Chevrolets from Adshead's Garage recently.

Mr. and Mrs. A. Olson, accompanied by Frank W. Wilcox and Orville Ploger left last week by car for California.

Mr. and Mrs. A. G. Studer with Mrs. C. A. B. Studer and her mother, Mrs. Rodaway, are visiting in Edmonton this week.

Mrs. S. G. Watt and family are moving this week to their cottage at Buffalo Lake for a couple of months.

Mr. and Mrs. W. A. Swingle and daughters, left on Monday for an extended trip through Glacier and Yellowstone parks.

A dance will be held in the Opera House on Friday, July 10th, at nine p.m. Good music by the Serenaders' orchestra. Admission \$1.00 per couple, extra lady 25c.

A good program of sports will be held at Westcott on Wednesday, July 15th, consisting of baseball at eleven o'clock, also horse races and athletics of all kinds. Admission 25c., cars free.

The W.C.T.U. will hold their regular meeting at the home of Mrs. Reiber on Thursday, July 9th, at 2.30 p.m. Subject for this meeting: "Alcohol, in experience and experiments." All ladies are cordially invited.

C. F. Boulter, A.T.C.L., L.R.A.M., pupil of Professor W. Webber, of London, England, will receive a few pupils for pianoforte instruction, rudiments, harmony and counterpoint. For terms, etc., write box 338, Didsbury.

The following pupils of Miss L. Le Gault were successful in pianoforte examinations—Reta Miriam Weber, intermediate grade and rudiments; Una Weber, lower division; Muriel Armstrong, elementary; Evelyn Brooke, primary with honors.

Divine service will be held at St. Cyprians (Anglican) on Sunday next, July 6th, at 10.45 a.m. Holy Communion. Archdeacon Hayes of Calgary will officiate. As this will be the only Communion service given in Didsbury during the summer it is hoped that everyone who can attend will do so.

LOST—On Sunday night last, a ladies' gold wrist watch somewhere between Mrs. E. Shantz's house and east to Railway Ave. and south to Union Bank, west to Dr. Clark's residence, thence north to Mrs. Shantz, inscription engraved on back "From mother, June 24th, 1924." Will finder please leave at Pioneer Office. Watch is hexagon shape. Reward.

## HAIL

As in the past we are lined up with our old reliable Hail Insurance Companies for season of 1925. We are not around hampering farmers for hail insurance when you are too busy seeding to lose any time with us, but when the proper time comes and you are reasonably sure of a crop by all means have us place enough hail insurance on your crop to give you sound protection for your labor. We will do our best to call at your home, but if we fail to reach you in due time kindly call at our office and we will, as in the past appreciate your business.
